**IMAGINE SOLUTIONS RECEIVES
IBM ECM PARTNER OF YEAR AWARD**

Dallas, Texas, December 1, 2011 — Imagine Solutions, Inc., a leading provider of enterprise content management (ECM) consulting and technology solutions announced that it was awarded the “IBM ECM Partner of the Year Award.”

This award reflects Imagine Solutions’ exceptional success in deploying IBM’s Enterprise Content Management technology suite across a broad range of client environments and use cases, with services including solution definition, implementation and ongoing support.

“We thank IBM for recognizing Imagine Solutions with this award,” said Rick Smith, CEO. “As IBM continues to deliver market-leading technologies in the ECM space, we are delighted to be in the position to deliver these technologies in the form of high value solutions to our clients. We are excited about what we see in IBM’s ECM roadmap and what we will be able to deliver as even more compelling client solutions in 2012.”

About Imagine Solutions

Imagine Solutions cross-platform technology solutions and professional services deliver a robust framework from which to define, implement and enhance your enterprise content management strategy. A privately held company, Imagine Solutions has provided the Encapture[®] technology platform and consulting services to the enterprise content management industry since 1998.
