

IMAGINE
SOLUTIONS™

The ECM Specialists™

Company Overview:

Imagine Solutions™, founded in 1998, provides pragmatic Enterprise Content Management (ECM) solutions that deliver new levels of automation and agility to document intensive business processes. We do this through a combination of our flexible capture platform and ECM-centric services, which seamlessly integrate into current line-of-business systems, while enhancing existing content management infrastructure.

With a proven track record of delivering quality and innovation, Imagine Solutions offers an essential blend of process optimization, advanced technologies and ECM lifecycle services that help clients substantially improve information quality, increase operational effectiveness and mitigate compliance risk, in a cost effective fashion.

Encapture Product Overview:

Imagine Solutions' **Encapture®** is an enterprise application that speeds the pace of document capture and delivery throughout the enterprise. **Encapture** is a powerful and extensible capture platform that lets organizations ingest documents from paper, electronic files and other sources at the first point of contact. It transforms that data into digital content and routes it securely to the right systems, processes and people. By reducing manual paper handling, **Encapture** minimizes processing errors, improves data accuracy and accelerates business processes by making information instantly available in many popular ECM repositories.

ECM Services Overview:

As the recognized ECM Specialists, Imagine Solutions brings superior skills, extensive experience and a proven framework to helping clients access their ECM strategies, align their ECM environments accordingly and manage their ECM platforms for superior performance. As leaders in the field of enterprise capture, we bring together technology and business process across the organization to gain optimum value from any ECM initiative. Imagine's consultants are experienced in all ECM approaches and all stages of the ECM lifecycle, utilizing a proven methodology and best practice approach to each situation.

Industry Recognition:

Year after years, Imagine Solutions has been honored and recognized for their innovative thinking and pragmatic approach to solution delivery:

- IBM Information Solution Excellence Award,
- IBM FileNet's North American Partner of the Year
- Kofax Top North American Partner

Community Support:

Imagine Solutions believes in giving back to the community. Chosen for employee volunteer activities and contributions have been Big Brothers Big Sisters, Children's Hospital, Denton County Friends of the Family, Juvenile Diabetes Research Foundation, Multiple Sclerosis Society, Safe Haven Shelter for Abused Women & Children, Second Wind Dallas, Susan G. Komen, The North Texas Food Bank and Texas Special Olympics.
